Profile

Hello! I'm a recent graduate with a Bachelor's Degree in Computer Sciences (Software Engineering) from AAB University in Pristina, where I completed my studies in 2022. My academic journey has equipped me with a strong foundation in software development, problem-solving, and cutting-edge technologies.
I am passionate about designing and building efficient, scalable, and user-friendly software solutions. My expertise spans programming languages, software design principles, and collaborative development practices. I thrive in dynamic environments where I can apply my technical skills to solve real-world challenges and contribute to impactful projects.

What I bring to the table:

- Solid understanding of software development life cycles (SDLC) and agile methodologies.

- Proficiency in programming languages such as [Java, Javascript, C#.].

- Skilled in using AI tools like ChatGPT, Qodo, DeepSeek as a coding sidekick—debugging, faster brainstorming better, and building smarter.

- Experience with [Reactjs, React native, Redux, nodejs, Git etc.].

- Strong analytical and problem-solving skills, with a focus on delivering high-quality code.

- A collaborative mindset and excellent communication skills, honed through team projects and academic collaborations.

I am eager to leverage my academic background and technical skills to contribute to innovative projects and grow as a professional in the tech industry. Let's connect and explore opportunities to collaborate, learn, and make an impact together!

Education

BACHELOR OF SCIENCE IN COMPUTER SCIENCES — **Oct 2018 - May 2022**

AAB University, Pristina
Total ECTS: 180
GPA: 7.89
Field(s) of study: Software engineering. Thesis: Zhvillimi i një aplikacioni për Fitness Studio (Creating a Fitness Studio Application C#)

Courses

Junior to Senior Web Development — **Present**

I have been following this course since last year to improve my web development skills. Even though since i am working i do not quite have the time to follow it regularly but i still sit and learn everytime time i got the time.

Hobbies

- Coding
- Reading tech blogs
- Playing video games
- Hiking
- Learning new programming languages
- Traveling
- Fitness training
- Football

Complete C# Masterclass **Present**

I am also taking a C# Masterclass course where i can take my C# skills to another level!

The Complete Web Developer: Zero to Mastery **Sep 2023**

I have completed the Complete Web Developer: Zero to Mastery course in Udemy in the year 2023, where i took my web development skills to another level. Since i Because great service isn't just about answers—it's about creating experiences worth remembering!

Full Stack Fundamentals **March 2025**

Roi Academy Pristina(Online)

I completed this course at ROI Academy, which improved my knowledge of full-stack programming, especially PHP. We built some awesome projects using PHP and MySQL. The training lasted two months and deepened our understanding of full-stack programming. We also created a new project from scratch every week.

C# Programming

I have followed this traning which was made possible from AAB University at the time i was student there, it was a 10 Week training where we learned some basic and also advanced topics such as MAKIND DECISIONS, LOOPS, FUNCTIONS AND METHODS, OOP, ERROR HANDLING, COLLECTIONS IN C# and many other topics!

Soft Skills **Sep 2018**

- Team Collaboration: Fostering a cooperative environment with diverse teams, actively engaging in brainstorming sessions to drive project success.

Enterpreneurship and Digital Marketing **Nov 2018**

- Developed and implemented e-commerce strategies to enhance online sales through effective digital marketing techniques.

Achievements

- Played a critical role in maintaining employee databases with a focus on accuracy and confidentiality, ensuring all records were compliant and up to date.
- Achieved a GPA of 7.89 in Bachelor of Science in Computer Sciences, reflecting strong academic performance and a solid foundation in software engineering principles.
- Developed a Fitness Studio application as part of my Bachelor's thesis, showcasing software engineering skills and practical application of programming knowledge in C#.
- Demonstrated strong problem-solving skills by turning customer frustrations into tailored solutions, leading to improved customer loyalty and retention.
- Proficient in leveraging AI technologies such as ChatGPT to enhance productivity, problem-solving, and code optimization. Comfortable integrating AI tools into development workflows for improved efficency and smarter decision-making.
